

# MoliPants Soft:

## A quality product for a better quality of life

- In today's Residential Aged Care Facilities, it is essential to provide high quality care in the most cost efficient manner
- One of the most economical methods in managing incontinence that is used by many facilities is the two part system which consists of a highly absorbent pad together with fixation pants. This provides comfortable, body close and an easy to use answer to Continence Management
- Many of the current mesh fixation pants in use today have been made in the same way for 20 years. There is a need for a more modern and cost effective product – MoliPants soft is indeed that product whose time has come
- MoliPants soft offers safe fixation of the pad with higher wearing comfort than ever before and will save on overall costs for facilities who see the two piece incontinence management system
- MoliPants soft is made from a highly elastic but soft material which keeps the pad in place better than any other part but without cutting into sensitive skin. This provides comfort coupled with less leakage than ever before
- MoliPants soft can be washed many times and even put through normal hospital laundry cycles without losing elasticity or softness. It provides ongoing cost efficiencies

### Economic in use:

the pants maintain their stability of fit for a long time: they are washable at 60°C and can be tumble dried at low heat

### High wearing comfort:

the seamless pants made of soft and elastic material ensure an all-round comfortable fit

### Easy handling:

the colour coding of the size and the washing instructions facilitate the daily work of the caregiver

### Safe fixation:

due to the high elasticity and the dense structure of the material, an optimal fixation of the pad is ensured

### Advantages for carers

- Easy handling, easy differentiation between products
- Improved elasticity of the material, material keep its fit after drying
- Improved product coding

### Advantages for wearers

- Soft cuffs, does not cut into legs
- Comfortable
- Safe fixation, no leakage of pad

# MoliPants Soft:

A feeling of security and well-being
